***Allowable Subject Matter***

***Reasons for Allowance:***

4. Claims 1-13 are allowed.

The following is an examiner's statement of reasons of allowance:

The reasons of allowance should be evident from the applicant's arguments made in paragraphs 2 and 3 on page 5 of the amendment filed November 14, 2005. The instant invention is directed to a method for analyzing a suspected defect in an integrated circuit die. The key difference between the instant invention and the closest prior art (Wagner et al., U.S. Patent No 5,798,529) is the fact that the instant invention recites using a state-changing operation of suspect circuitry having the suspected defect to cause a failure due to the suspect circuitry and therein, to facilitate confirmation that the suspected defect should be further analyzed and using this is not taught by Wagner. This limitation as recited in the amended claim 1 is not disclosed or suggested by prior art of record. Therefore, claims 1 is allowed. All other claims depending on claims 1 are allowable at least by dependency on claims 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
